EDUCATION

University of the Philippines - Los Baños
Bachelor of Science in Computer Science

September 2021 - July 2026

EXPERIENCE

DOST Website Development | *PHP, Laravel, WordPress*
Full-Stack Developer Intern

June 2025 - July 2025

Remote

- Developed a custom PHP-based WordPress Quick Links plugin and an interactive map of DOST agencies with filtering options by region and area of specialization.

PROJECTS

COSS Website (In Development) | *MongoDB, Node/Express, TypeScript*
Backend Developer

August 2025 - May 2026

- Designed and implemented the full-stack Contact Us feature using React, Express.js, and MongoDB to process user submissions, handle API requests, and store inquiry data.

Alumni Tracker and Relations System | *Supabase, Node/Express, React*
Full-Stack Developer (Backend Focused)

February 2025 - May 2025

- Developed web routes and RESTful APIs, writing Supabase database queries for data storage and retrieval.
- Implemented client-side React logic for multi-parameter filtering by date and name, alongside real-time substring search across job titles and descriptions.
- Translated Figma designs into responsive React UI components and connected them to backend API routes for end-to-end functionality.

Food & Restaurant Review System | *Python, MariaDB*
Full-Stack Developer

February 2024 - June 2024

- Designed and built the relational database schema in MariaDB, mapping entity relationships from initial ERD diagrams through to full database creation.
- Programmed Python backend scripts and API endpoints to execute database queries, handle data retrieval, and ensure system-wide record accuracy.

Interpreter for LOLCODE Programming Language | *Python*
Full-Stack Developer

September 2024 - December 2024

- Developed GUI-integrated input handling to enable the interpreter to process user input through the interface.
- Implemented the syntax analyzer, semantics analyzer, and symbol table display.

FieldFare: Farm-to-Table Website | *MongoDB, Node/Express, React*
Full-Stack Developer

April 2024 - May 2024

- Co-designed and structured flexible MongoDB schemas to manage product listings, user profiles, and order data.
- Developed RESTful APIs using Node.js and Express.js to handle user operations, inventory, and transaction.
- Built responsive React UI components to ensure an intuitive browsing experience on web and mobile devices.

LEADERSHIP AND ACTIVITIES

UPLB Computer Science Society (COSS)
42nd Computer Science Week Job Fair Co-Head

August 2025 - February 2026

- Coordinated with partner companies, university offices, and the organization to support smooth event execution.

41st Computer Science Week Marketing and Advertising Committee Co-Head

August 2024 - March 2025

- Participated in decision-making for content scheduling and marketing strategies for the CS Week.

SKILLS

- Languages:** Python, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, SQL
- Technologies & Frameworks:** React, Node.js, Next.js, Express.js, MongoDB, Supabase, MariaDB
- Developer Tools:** Git, GitHub, Visual Studio Code, Eclipse
